THE STOCK MARKET BOOMS ON EASY MONEY.

ANOTHER FAVORABLE BANK STATEMENT EX-PECTED-SHELVING TARIFF QUESTIONS ON THE GENERAL MARKET-" DUN'S REVIEW" ON TRADE.

The Wall Street markets opened after the Thanksgiving holiday with renewed strength. in for a "nip. Activity was by no means marked, and the commission houses complained of a lack of outside however, and with one accord directed their energies toward advancing prices. London sent higher prices for American securities, and this led to a general ignoring of the reported purchases of stocks for foreign account were not reflected in the foreign exchanges, which continued firm. The bulls are buying stocks on the theory that the big accumulation of money in the banks must force investors into doubtful securities after all the unimpeachable issues have been absorbed. Another big gain in cash and reserve is looked for in to-day's weekly bank statement, and owing to advances on wheat and cotton some increase in loans is expected. Bankers, generally, however, complain of the prevailing dulness of trade, which forbids their extension of credit with safety.

The stock market showed only a few striking changes. The speculation in American Sugar Refining continued large, more than 75,000 shares changing hands, but after a rise from 82 to 83 prices fell to 80, and then rallied to 814. The Street gossip ran that the "insiders" were buying stock around 80 and were prepared to demonstrate that the proposed cut in the duty on refined sugar had been "discounted." Com mission brokers are at a loss to recommend action on this highly manipulated stock pending the uncertainty of the tariff and revenue schedules. The Washington situation was used with profit by the friends of Distilling and Cattle Feeding, for on rumors from the National capital to the effect that the tax on spirits ould be raised from 90 cents to \$1.15 a gallon, the price was run up from 25% to 27%. National Lead fell to 21%, and at 22% showed a net decline of 1 per cent. Chicago Gas was advanced from 68% to 69, but it receded to 6714, and then railied to 68. The Street continues to discuss the probabilities as to whether the next dividend will be paid in cash or in scrip. An early decision by the directors is

The bulls were successful in advancing Union Pacific 2% per cent to 23%, Atchison, Topeka and Santa Fe 11/2 to 217%, Louisville and Nashville 114 to 521/2, Denver and Rio Grande preferred 114 to 3418 and Missouri Pacific 1 per cent to 27%. S. V. White was credited with putting Western Union Telegraph up from 91% to 92, and Russell Sage was quoted as predicting high prices for this stock. The market closed with the bulls in high glee, and the tariff question was speculatively placed on the shelf.

REVIEW OF THE COMMERCIAL SITUATION. total of 326, against 421 for the preceding week and 269 for the corresponding week of 1892. Only four of the week's failures were of liabilities exceeding \$100,000. Deducting the large street railway failures reported a week ago, the aggregate of liabilities this week is nearly double that of the preceding week, "Dun's Review" notes that, although the sales of wool were 6,619,800 pounds, against 4,354,500 pounds in the same week of 1892, part of the transactions are speculative in nature, while dispatches show that several woollen mills have been closed for lack of orders, and the recent increase noted in demand for goods does not continue. Cotton manufacture enjoys a decided improvement, owing to the bareness of the market, but the reports from the iron and steel trade are not inspiriting. The summary of the situation in business is given conservatively as follows:

situation in business is given conservatively as follows:

It cannot be said that business during the last week has grown better or worse. For some days the gain in demand and in transactions which had been previously noticed evidently continued. But afterward tariff ancertainties were thought to affect some branches of business, and, whatever the causes, the state of trade was less clear. Money was everywhere abundant, with rates comparatively low, and the commercial demand was remarkably small, while the demand for speculative uses appeared to be increasing. When there are symptoms of a transition state, ordinary indications, based upon the course of business down to a few days ago, are not as valuable as usual, but on the whole such signs are rather less encouraging than they were a week ago. Reports of different branches of trade and from different cities frequently mention tariff uncertainties as a cause of natural hesitancy, but it will take some time to determine whether the general tendency toward improvement has been checked, or to what extent. The volume of trade has been somewhat increasing, and yet not as much as was expected, the exchanges for last week showing a decrease of 36.5 per cent compared with last year, in part because the week covers only five business days, against six last year. For two weeks, covering the same working days, the decrease has been 2.3 per cent. The railroad earnings for the latest week of November show a larger decrease has been 2.3 per cent. SUICIDE IN A ROMAN CATHOLIC CHURCH.

A POOR MAN, OUT OF EMPLOYMENT, WALKS UP THE AISLE OF ST. PAUL'S AND SHOOTS HIMSELF DEAD.

John Baptiste Dunne, unmarried, thirty years old, killed himself yesterday morning in Paul's Reman Catholic Church, at One-hundredand-seventeenth-st. and Fourth-ave. Illness and recent loss of employment were believed to be causes of his suicide. He formerly was a clerk in the employ of the American Express Combut he lost his position a month ago. lived with his infirm and widowed mother at No. East One-hundred-and-twentieth-st.

There were only a few persons in the church when he killed himself. He had attended mass early in the morning, and he waited in one of the pews until most of the other worshippers had left the church. At 9 a. m. Mary Costello, Annie Kelby and an elderly woman were still kneeling at the altar. There was silence in the church until Dunne drew a revolver from his pocket, placed the muzzle of the weapon against his head and fired Father Parker, who was in the vestry, hastened into the body of the church, and found Dunne lying senseless in one of the aisles. AFTER THE FOOTBALL GAME.

A FEW STUDENTS AND MANY SEEDY-LOOKING PRETENDERS IN LINE AT THE JEFFER-SON MARKET COURT.

Jefferson Market Court was packed to the doors yesterday. The court officers had difficulty in naking a path for the entrance of officers with making a path for the entrance of olineers with prisoners, witnesses and lawyers. A long line of young men and women, some of whom represented Yale, looked extremely blue, while a continuous line of sallow and prison-worn complexions, with an occasional black eye, stood for the Princeton interests. Justice Koch "hustled" them off as fast as they came before him, fining some 55, and discharging others whenever there was reasonable cause to suspect that the boys were merely "celebrating" and not on mischief bent. The boys were not so chipper as they were Thursday night. Only about half of the prisoners appeared and talked like college boys. The rest were campfollowers of an exceedingly commercial appear-

NEWS OF THE ARMY AND NAUY.

ASSIGNMENT OF GENERAL OTIS-THE NEW-YORK'S FINAL TRIAL MOVEMENTS OF WARSHIPS.

Washington, Dec. 1 .- An order was issued from the War Department to-day assigning General Otis, Brigadier-General of the Army, to the command of the Department of the Columbia. This Department was commanded by General Carlin, captain and assistant quartermaster. This appointment was made under probably the most The business failures for the week reported by telegraph to R. G. Dun & Co. number 278 for the United States and forty-eight for Canada, a total of 326, against 421 for the preceding week and 269 for the corresponding week of 1892. To avert a more dreadful fate, this desperation and wording the large street railway failures reported a week ago, the aggregate of liabilities this week is nearly double that of the preceding week, "Dun's Review" notes that, although the sales of woold were 6,619,800 pounds, against 4,354,500 pounds in the same week of 1892, part of the transactions are speculative in nature, while dispatches President, nearly every first lieutenant in the Iminory to final acceptance by the Government, shall begin on Monday, December I, instead of on Monday, December II, as originally intended. The reason for making this change is that as cruiser is coaled in drydock at the Brookin Navy Yard and there is no necessity for delaying the trial longer. The New-York will proceed to see and be tested for forty-eight hours in deep water.

The cruiser San Francisco arrived at Barranquilla, Venezuela, yesteriay, on her cruises slong the Central American and northern South American coast. The flagship Chicago salled to-day from Genoa for Villefranche. The Portamouth left Beston for Newport, and the Monongahela arrived at Newport to-day.

The Naval Hoard appointed to report measures to correct the instability of the smaller cruisers was called together at the Navy Department by Commodore Walker this merning. Inasmuch as Secretary Herbert has signified his desire to dispose of the award of contract for the three new gumboats before Congress meets the board will probably undertake at once to pass upon the merit of the original plans submitted by the Union Iron Works of California, which is the main point at issue.

OF THE 22D. Some talk has been heard since the athletic games of the 251 Regiment were held on Wednesday evening regarding the small "hitch" which occurred about the team from the 7th Regiment in the relay race. At first it was understood that this team represented the 7th Regiment. This in this team represented the 4th Regiment. First in itself caused some surprise, as it was generally known that the 7th Regiment Athletic association never allowed any except members of the regi-ment to compete at its games, and never sent out teams from the regiment to meetings of other

athletic associations.

A day or two before the games the fact was brought to light that either some one had acted without authority or a wrong impression had been created. A rule of the 7th Regiment Association became known which prohibited any athlete entering games outside of the armory as a representative of the 7th Regiment or the athletic association.

Word was sent to the officers of the 22d Regiment Association that the men from the 7th could not represent that organization, but only the National Guard generally. Although the members of the 22d were disappointed, they were liberal enough to accept the situation, and the team competed. The rule of the 7th savei that organization from having a defeat scored up against it, as the team from the 22d won the race easily.

THE LIBEL SUIT AGAINST C. L. TIFFANY. Judge Beach, of the Supreme Court, yesterday reserved decision on an application made by Ten Eyck & Remington, in behalf of Charles L. Tiffany, for a bill of particulars in a suit brought by Thomas Waln Morgan Draper, the genealogist, to recover \$19,000 damages from Mr. Tiffany for alteged libel. Draper was employed by Mr. Finany to compile the genealogy and history of the Tiffany family in America. Mr. Tiffany afterward sent out a circular, in which he said that Draper had been collecting subscriptions for the work, which Mr. Tiffany had decided not to publish because the work was not done in a satisfactory manner. "For other reasons," the circular continued. "I shall not publish the said work. I caution every one from making payments."

Mr. Draper alleges that his business has been injured by the circular to the extent of \$10,000.

FOR THE BOUCICAULT DIVORCE CASE. Judge McAdam has appointed Lytton Taylor, of Nashville, Tean., a commission to take the testimony of E. J. Henley in the suit for divorce mony of p. J. Beney in the suit of distance brought by Amy Boucicault against her husband, Aubrey Boucicault. The case came up for trial recently, and the plaintiff was not able to prove by direct testimony the charges which she made. Mr. Henley is a member of A. M. Palmer's stock company. His testimony, it is said, will prove the allegations. Victory Bateman and Ann Dougan are named as correspondents.

BYRNES CRITICISES POLICE JUSTICES. Superintendent Byrnes yesterday sent to the Police Board a report upon the recent complaint by the City Improvement Society that the police failed to enforce the ordinances which provides for keeping the sidewalks clear. A man had been arkeeping the sidewalks clear. A man had been arrested for direct violation of the ordinance, but at the Jefferson Market Police Court he had been discharged by Justice Hogan, who had declared that the case was one which should have been taken into a civil court, not to a police court. The Superintendent quoted the law which indicated that Justice Hogan had jurisliction in the case, and he stated that some of the police justices did not work in harmony with the police in abating the sidewalk nuisances. The Commission ing the sidewalk nuisances. The Commission ers seemed inclined to criticise the action of Justice Hogan, but they also talked as if they thought that the police force should continue to make arrests for all violations of the ordinances, and take the prisoners before the police justices. By a resolution offered by President Martin all of the police men heretofore detailed to special ordinance duty in the precincts were remanded to ordinary patrol duty.
